Updated:	2013-02-16	**Due date:**	

Subject:	Content Editing on Tablet Devices
Description:	h1. Content Editing on Tablet Devices

* Target Audience: *users* who want to edit content on a tablet device
* Responsible: Rens Admiraal
* Implemented by: Rens Admiraal, Patrick Broens
* Amount: 10 work days
* Version: *must have* for 1.0
* Planned Implementation Timeframe: Half way april till end of may

h2. Motivation

A lot of content editors / users make use of tablets. A working content editing user interface for tablets is a must have.

h2. Goal

Make the Neos user interface work for tablet users.

h2. Deliverables

* Make the Neos content editing user interface working on tablets
* If the onscreen keyboard is opened the unneeded ui elements will be hidden
* Tablet specific styling for buttons & controls
* Working backend modules on tablet
* Make the current userinterface work on smaller screens till the screensize of ipad mini (7")

h2. Won't haves

* The page tree component will not have drag and drop support
* Custom content editors like the image editor are not guaranteed to work
