

hyper **SOURCE** **Security Assessment Report**

This report presents a comprehensive security assessment of project: Flow3, which refers to one or several project(s) and multiple file(s). The contents of this report are confidential and are the properties of alex. This report should be delivered to individuals on a Need-to-Know basis only. Any inappropriate or unauthorized disclosure portions of this report could result in a significant damage or loss. Therefore, duplicate copies shall be kept safe and out of reach of unauthorized personnels at all times.

Compliance statement

This assessment is based on the regulations and guidelines set forth by the Open Web Application Security Project (OWASP).

OWASP is a non-profit, unaffiliated organization dedicated to the facilitation and promotion of Web-application security. As such, the organization enables the development, purchase and maintenance of applications that can be trusted. OWASP promises local chapters open, unbiased, open-source documentation, tools and standards.

For more information, please visit :#<http://www.owasp.org/index.php>
