

TYPO3.Flow - Feature # 1

Status:	Closed	Priority:	Should have
Author:	Karsten Dambekalns	Category:	Package
Created:	2006-12-14	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Subject:	Use SPL when searching/listing files.		
Description			
<p>The SPL provides some nice iterators for (recursively) working through directories, there even is a way to nicely implement a <code>!DirectoryIterator</code> variant that omits <code>.</code> and <code>..</code> automatically.</p> <p>This would provide a nice way to replace custom <code>opendir-read-check-for-dot</code>.</p>

Where do you want to use the `DirectoryIterator` where it is not used yet?

The Package Manager has a custom check for `"."` because it also wants to omit hidden files.
