note:

When I do "grep -ir 'LGPL' *" in the root of my Phoenix installation I got a lot of links to <http://www.gnu.org/licenses/lgpl.html> in the copyright header / comments. Is this also wrong?

#4 - 2010-10-18 08:51 - Christian Müller

Good question, I would say it should be <http://www.gnu.org/licenses/gpl.html>, I know of nothing else than plan GPL for TYPO3. But maybe some external libraries could be LGPL. I will cross-check it.

No, as FLOW3 and its dependencies are LGPL. Simply search for "Lesser" in the TYPO3 package to find the stuff I meant.

Cool, these are my files... Think I copied the notice from flow3.org...
