

TYPO3.Flow - Bug # 10516

Status:	Closed	Priority:	-- undefined --
Author:	Martin Eisengardt	Category:	- Error Handler Report -
Created:	2010-10-28	Assigned To:	
Updated:	2010-12-13	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	F3\FLOW3\Package\Exception\UnknownPackageException thrown in file PackageManager.php		
Description			
<p>This problem only occurs once under windows vista. Seems that some component is misbehaving/misusing the windows directory separator. It only occurs with empty data/temporary directory. Adding the following code in F3\FLOW3\Resource\Streams\ResourceStreamWrapper, line 499 to change windows style backslash to slash solved the problem for me. Of course there should be a smarter fix.</p> <pre>\$requestedPath = str_replace("\\", '/', \$requestedPath);</pre> <p>Package "FLOW3\Private" is not available. Please note that package keys are case sensitive.</p> <pre>10 F3\FLOW3\Package\PackageManager::getPackage("FLOW3\Private") 9 F3\FLOW3\Resource\Streams\ResourceStreamWrapper::evaluateResourcePath("resource://FLOW3\Private") 8 F3\FLOW3\Resource\Streams\ResourceStreamWrapper::pathStat("resource://FLOW3\Private", 3) 7 F3\FLOW3\Resource\Streams\StreamWrapperAdapter::url_stat("resource://FLOW3\Private", 3) 6 RecursiveDirectoryIterator::hasChildren() 5 F3\FLOW3\I18n\Service::generateAvailableLocalesCollectionByScanningFilesystem() 4 F3\FLOW3\I18n\Service::initialize() 3 F3\FLOW3\Core\Bootstrap::initializel18n() 2 F3\FLOW3\Core\Bootstrap::initialize() 1 require("D:\Dev\ws\bghosting_website\com_bghosting_flow3_de...wkflow3\Packages\Framework\FLOW3\Scripts\FLOW3.php")</pre>
