

## TYPO3.Fluid - Bug # 11007

<b>Status:</b>	Closed	<b>Priority:</b>	Must have
<b>Author:</b>	Georg Ringer	<b>Category:</b>	Widgets
<b>Created:</b>	2010-11-22	<b>Assigned To:</b>	
<b>Updated:</b>	2011-05-06	<b>Due date:</b>	
<b>Has patch:</b>			
<b>Affected Flow version:</b>			
<b>Subject:</b>	PaginateController uses wrong offset		
<b>Description</b>			
<p>The PaginateController doesn't work with an offset set in the original query.</p> <p>Example:</p> <p>7 news records should be displayed with an offset of 2 (explanation could be that the 1st 2 records are rendered with a different plugin). itemsPerPage = 3</p> <p>1st page should show:</p> <p>item 4 item 5 item 6</p> <p>2nd page should show</p> <p>item 7</p> <p>-----</p> <p>currently output is:</p> <p>1st page:</p> <p>item 4 item 5 item 6</p> <p>2nd page:</p> <p>item 4 item 5 item 6</p> <p>3rd page:</p> <p>item 7</p>			
<p>the possible offset of the query is not checked.</p>			

### History

#### #1 - 2010-11-22 13:41 - Georg Ringer

- File fluid-paginate-offset\_v2.patch added

#### #2 - 2010-11-24 20:52 - Bastian Waidelich

- Project changed from Extbase MVC Framework to TYPO3.Fluid

#### #3 - 2010-11-24 20:56 - Bastian Waidelich

- Category set to Widgets

- Branch set to v4 + v5

Note: The first part of the patch:

```
$this->numberOfPages = ceil((count($this->objects)-$query->getOffset()) / (integer)$this->configuration['itemsPerPage']);
```

is not needed anymore, as count() already retrieves the limited number of result (see #10956)

#### **#4 - 2011-05-06 10:35 - Sebastian Kurfuerst**

- *Status changed from New to Closed*

should be fixed now, as the Paginate Widget has been completely rebuilt in v5 (and will be soon backported)
