DEV3 - Feature # 1112

Status:	Resolved	**Priority:**	Should have
Author:	David Bruehlmeier	**Category:**	Installation Issues
Created:	2008-07-23	**Assigned To:**	David Bruehlmeier
Updated:	2010-10-20	**Due date:**	
Subject:	Multi-Language Support		

Description

DEV3 should be multi-language enabled.

Note: This does not necessarily mean that DEV3 will be translated to languages other than English. It only means that labels are not hard-coded but rather fetched by using the translateable Eclipse mechanism.
