TYPO3.Flow - Bug # 11330

Status:	Resolved	**Priority:**	Should have
Author:	Andreas Förthner	**Category:**	Resource
Created:	2010-12-08	**Assigned To:**	Karsten Dambekalns
Updated:	2010-12-20	**Due date:**	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	Uploading resources fails on windows due to a missing directory		
Description			

If the directory Data/Persisten/Resources is not present on windows (which is the default currently), the uploading doesn't work.

Solution: Either deliver the file in the distributions or create during runtime.

History

#1 - 2010-12-20 16:51 - Karsten Dambekalns

- Status changed from New to Needs Feedback

- Assigned To set to Karsten Dambekalns

- Target version set to 1.0 alpha 14

- % Done changed from 0 to 100

It is created, see lines 160 and 161 in ResourceManager:

    $this->persistentResourcesStorageBaseUri = FLOW3_PATH_DATA . 'Persistent/Resources/';
    \F3\FLOW3\Utility\Files::createDirectoryRecursively($this->persistentResourcesStorageBaseUri);

Does this not work for you?

#2 - 2010-12-20 19:04 - Christian Müller

Tried in windows and indeed with this line everything working. So can be closed.

#3 - 2010-12-20 21:32 - Karsten Dambekalns
