It seems the Twitter package is not enabled by default.

```
./flow3 package activate Twitter
```

This however results in a new problem, it can't seem to find `\F3\TYPO3\TypoScript\Plugin`, so we get the error

```
PHP Fatal error: Class 'F3\TYPO3\TypoScript\Plugin' not found in  
/home/kresten/dev/typo3/TYPO3v5/Packages/Application/Twitter/Classes/TypoScript/LatestTweets.php on line 31
```

Is my TypoScript outdated?
