| <b>Affected Flow version:</b>  |  |                     |                    |
| <b>Subject:</b>  | No proxy class code exception after clearing temporary data in development context |                     |                    |
| <b>Description</b>   |  |                     |                    |
| I get occasional exceptions on first access after clearing temporary data in development context:<br><br>#1229362833: No proxy class code for class "F3\FLOW3\Core\Bootstrap_AOPProxy_Development" found in cache. |  |                     |                    |

### History

#### #1 - 2010-12-20 16:53 - Karsten Dambekalns

- Category set to AOP
- Status changed from New to Needs Feedback
- Assigned To set to Karsten Dambekalns

Are you sure this not caused by some race condition when ExtDirect calls something while clearing temporary data? If Data/Temporary/ is empty, this should never happen...

#### #2 - 2011-03-21 12:04 - Karsten Dambekalns

- Status changed from Needs Feedback to Closed

Most probably outdated anyway...
