

## TYPO3.Fluid - Task # 11636

Task # 26664 (New): Clean up Form ViewHelpers

Task # 26658 (New): Make Form ViewHelpers consistent

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Daniel Lienert	<b>Category:</b>	ViewHelpers
<b>Created:</b>	2010-12-22	<b>Assigned To:</b>	Christopher Hlubek
<b>Updated:</b>	2013-10-21	<b>Due date:</b>	
<b>Has patch:</b>	No		
<b>Subject:</b>	Form viewhelper not functional with method GET		
<b>Description</b>	<p>If the GET-method is used, only the url from action is passed to the server, but not the paramaters given there like pageld, controller, action.</p> <p>These fields should be added as hidden fields in the form.</p>

### Associated revisions

#### Revision 488b238d - 2012-06-20 10:32 - Christopher Hlubek

[TASK] Add query parameters for form action as hidden fields

This change makes the form viewhelper usable with method GET by adding query parameters of the action as hidden fields to the form. Otherwise the browser would replace them by the form values

<http://www.w3.org/TR/html401/interact/forms.html#h-17.13.3.4>.

Change-Id: I9e47bf3919cdd366e3708a8fac53439b332fa5d8

Resolves: #11636

Releases: 1.1, 1.2

#### Revision 69453896 - 2012-08-01 18:44 - Bastian Waidelich

[BUGFIX] Action URI of the form ViewHelper is not reset

Form ViewHelpers store the action URI attribute for performance reasons.

But because instances of ViewHelpers are reused, this value needs to be reset.

Besides this removes an obsolete property "formActionUriArguments"

Change-Id: I9636b881c84285a57c5fb3225067871583c4159d

Fixes: #39456

## **History**

---

### **#1 - 2011-05-06 10:09 - Sebastian Kurfuerst**

- Parent task set to #26658

### **#2 - 2011-09-09 15:20 - Robert Lemke**

- Target version changed from 1.0 beta 2 to 1.0.0

### **#3 - 2011-10-20 01:48 - Karsten Dambekalns**

- Target version deleted (1.0.0)

### **#4 - 2012-05-24 12:33 - Bastian Waidelich**

- Priority changed from Must have to Should have

- Has patch set to No

Some more comments from #37459 :

If the form viewhelper is used with method="GET" and the action attribute that is built (given with actionUri or using the URI builder) contains query paramters, they will be lost on form submission (<http://www.w3.org/TR/html401/interact/forms.html#h-17.13.3.4>).

The form viewhelper should parse query parameters in the action URI and prepend them as hidden fields in the form to pass them to the request that is submitted.

- Status changed from Under Review to Resolved

Applied in changeset commit:0c8ef04ce86582e4eea8a702b3f4a90c9d639227.

**#14 - 2013-01-28 09:15 - Nicolas Forgeot**

the correction is deployed in version 1.4 ?

I have the same problem with a TYPO3 6.0.

**#15 - 2013-06-14 17:36 - Martin Terber**

Bug is still present in fluid 'version' => '6.1.0'

**#16 - 2013-06-14 17:46 - Bastian Waidelich**

Mateng no-lastname-given wrote:

@Mateng & @Nicolas:

This is the issue tracker for the Fluid package for Flow. For the Fluid extension please refer to <http://forge.typo3.org/projects/typo3v4-fluid/issues>

**#17 - 2013-10-21 20:15 - Marc Bastian Heinrichs**

Any suggestions how to handle this in CMS fluid in combination with realurl?

Btw.: you deprecated setFormActionUri, but still call it in render()
