Subject:	Link to setup guide for php 5.3 broken		

Description

In the requirements chapter of the getting started guide (
http://flow3.typo3.org/documentation/tutorials/getting-started/gettingstarted.requirements/) the link to the php 5.3 setup guide points to
 http://flow3.typo3.org/documentation/reference/flow3.installingphp53/ but I think it should be
http://flow3.typo3.org/documentation/manuals/flow3/flow3.installingphp53/
