Complexity:			
Subject:	Add support for multiple route parts in one URL pattern segment		
Description			
Currently only one route part is allowed between two slashes in a route URL pattern: news/[id] we need support for more than one dynamic route part in one segment to enable URL patterns like: news/[id].[@format] or user/[firstName]-[lastName]			

Associated revisions

Revision e7c2d156 - 2008-08-11 18:05 - Bastian Waidelich

- FLOW3: (MVC) Added "splitString"-property to F3_FLOW3_MVC_Web_Routing_DynamicRoutePart to add support for multiple route parts within one URL pattern segment. This resolves #1250.
- FLOW3: (MVC) Removed F3_FLOW3_MVC_Web_Routing_SubRoutePart as a "subroute part" is technically just some special form of a "dynamic route part".
- FLOW3: (MVC) Added another route to exemplify the usage of "splitStrings". Refactored routing classes.
