TYPO3.Flow - Task # 1268

Status:	Resolved	**Priority:**	Should have
Author:	Karsten Dambekalns	**Category:**	MVC
Created:	2008-08-12	**Assigned To:**	Karsten Dambekalns
Updated:	2010-10-20	**Due date:**	

Sprint:	
PHP Version:	
Has patch:	
Complexity:	
Subject:	CLI options must be written as "real" options, being prefixed with a (double) dash

Description

Currently anything following the first three arguments to a CLI request is considered as options. This should be changed so that only short- or long-style options are considered, anything else should be "input", as with traditional CLI tools.

Alternatively this could be anything after a double-dash, to make variable numbers of package/controller/action arguments possible (see #1267).
