TYPO3.Flow - Bug # 13

Status:	Closed	**Priority:**	Should have
Author:	Robert Lemke	**Category:**	Object
Created:	2007-02-20	**Assigned To:**	Robert Lemke
Updated:	2010-10-20	**Due date:**	

PHP Version:

Has patch:

Complexity:

Affected Flow version:

Subject:	Implement support for lifecycle methods

Description

The Component Manager (more precisely the object builder) should support at least some initialization life cycle method which is executed in the target object after the setter-based dependencies have been injected. Probably other methods for session-persistent components make sense as well.

History

#1 - 2007-02-21 10:03 - Robert Lemke

- Status changed from New to Closed

- Sprint set to fixed

(In r135) * Component Manager: Added support for a lifecycle initialization method. The name of the method can be configured in the Components.conf file (see T3P_TestPackage_BasicClass for an example). Fixes #13
