Core - Bug # 13056

Status:	New	**Priority:**	Must have
Author:	Riccardo De Contardi	**Category:**	Workspaces
Created:	2011-02-15	**Assigned To:**	
Updated:	2015-01-23	**Due date:**	

TYPO3 Version:	4.5
PHP Version:	
Complexity:	
Is Regression:	No
Sprint Focus:	

Subject:	admin users see all changes in LIVE workspace

Description

I've made a configuration like this:

~~an "editors" group~~

~~a "reviewers & publishers" group (has got "Live" access)~~

 a custom workspace

  - owner: reviewers & publishers

  - members: editors

No "workspace stage" records, as I want a very very simple workflow: the only step after editing should be "send to ready to publish"

When I am an admin user and I go to workspaces module (in LIVE), I still see all the changes done (i.e. all the changes occurred to the content element I've changed) with current stage: "editing" and the "Discard workspace version of record" button does not seem to work.

(Maybe related to 11535?)

- File C5.PNG added

The bug is still present in T3 4.5.1

I'd like to add some infos and screenshots: here is the procedure I followed:

STEP 1: editing

1. Enter with editor user (can work only in custom workspace)

1.1 Modify a CE (see C1.PNG, the text added is BBBBBB)

1.2 In workspaces module: see C2.PNG

1.2.1 Click on the green arrow "send record to next stage" (alternatively, I check the checkbox, then in the dropdown "choose action" the only choiche is "Send to stage: ready to publish".

I don't have recipients or comments to write, so I click "OK" on the popup.

1.2.2 see C3.PNG

STEP 2: publishing

2.Enter with publisher user (can work in custom workspace and LIVE)

2.1 in workspace module: C4.PNG

2.1.1 Click on the green arrow "send record to next stage" and then OK on the popup. Result: see C5.png

NOTE: if i check the checkbox, the dropdown "choose action" has 3 choiches:

."Send to stage: ready to publish" (WHY?? Again??)

."Publish to LIVE"

."Send to stage:editing"

STEP 3: enter as admin

3. Enter with admin user and go to LIVE workspace

3.1 in workspace module: C6.PNG

NOTE: in custom workspace I don't see anything, as in C5.PNG

3.2 If I click on green arrow, the result is C7.PNG; if I click again on the green arrow, it returns tu 3.1

Thank you for your support

BTW: what does

    Current stage step: Editing n/3

means exactly?

A customer asked me an update on this topic.

Thank you very much and best regards.

#8 - 2012-04-26 17:16 - Riccardo De Contardi

This bug is still present in TYPO3 4.7.0

#9 - 2013-03-27 16:52 - Riccardo De Contardi

This bug is still present in TYPO3 6.0.4!

#10 - 2013-03-27 20:27 - Andreas Wolf

- Target version changed from 4.5.4 to 6.0.5

@Riccardo: First of all, I'm sorry that nobody really took care of this issue for such a long time. I'm raising the target version now to the next 6.0 version, so maybe we can finally get this solved.

Two questions:

   1. What does the editor see in the workspaces module after the content has been published? Is the module empty or does it also display the content?
   2. Did you really choose "publish" or rather "swap" (I don't know if that option still exists, I'm not that firm with workspaces). Anyways, if you did not, then this is clearly a bug; if you swapped the versions (accidentially or on purpose), this is the intended behaviour.

- File 20130328_c4.PNG added
- File 20130328_c5.PNG added

Ok... this is the procedure I've followed

1. Groups - the following groups were created:

administrators (ID=1) - only to group administrators

ws_t3_permission   (ID=2) - all pages belong to this group

ws_t3_create_edit (ID=3) - this group has access list configured

ws_t3_mount[home]   (ID=4) - this group has db mount (home,ID=1) and file mounts configured

ws_t3_create (ID=5) - subgroups: ws_t3_permission, ws_t3_create_edit, ws_t3_mount[home]

ws_t3_review (ID=6) - subgroups: ws_t3_permission, ws_t3_create_edit, ws_t3_mount[home],ws_t3_create

ws_t3_publish (ID=7) - subgroups: ws_t3_create, ws_t3_review: Workspace permissions: Edit Live (Online) (it is the only group with this option checked)

2. Users - the following users were created:

administator (ID=609); is admin --> group:adminstrators

t3editor(ID=610); inherits DB mount, file mounts from group, edit live (Online):NO --> group: ws_t3_create

t3reviewer(ID=612); inherits DB mount, file mounts from group,edit live (Online):NO --> group: ws_t3_review

t3publisher (ID=614); inherits DB mount, file mounts from group,edit live (Online):NO --> group: publish

3. Workspace: the following workspace was created:

t3_draft(ID=1)

Owners: administators, ws_t3_publish

Members: ws_t3_create, ws_t3_review

Custom stages: Approval by reviewers; responsible persons: ws_t3_review, ws_t3_publish

All others options were left as default when a workspace is created.

4.TEST CASES

4.1 editing of an existing CE

4.1.1 - STEP 1: editing

4.1.1.1 Log in as t3editor and modify a CE (see 20130328_c1.PNG, the text added is BBBBBB), save

4.1.1.2 in workspace module: see 20130328_c2.PNG; when I check the CE the only option in the first dropdown below is "send to stage "Approval by reviewers" "

4.1.1.3 I click on the right green arrow to send the CE to the next step; I don't have recipients or comments to write, so I click "OK" on the popup.

4.1.1.4 Result: see 20130328_c3.PNG

4.1.2 - STEP 2: review

4.1.2.1 Log in as t3reviewer and go to the workspace module: see 20130328_c4.png; when I check the CE the options in the first dropdown below are the ones you see in the attached file (QUESTION: isn't an error to show "send to stage "Approval by reviewers""?)

4.1.2.2 I click on the right green arrow to send the CE to the next step; I don't have recipients or comments to write, so I click "OK" on the popup.

4.1.2.3 Result: see 20130328_c5.PNG

As far as now, if I enter as administrator, the LIVE tab of the workspace module is empty

4.1.3 - STEP 3: publish

4.1.3.1 Log in as t3publisher and go to the workspace module: see 20130328_c6.png; when I check the CE the options in the first dropdown below are the ones you see in the attached file (QUESTION: isn't an error to show "send to stage "Ready to publish"" ?)

4.1.3.2 I click on the right green arrow to send the CE to the next step; I don't have recipients or comments to write, so I click "OK" on the popup.

4.1.3.3 Result: see 20130328_c7.PNG

4.1.4 - enter as administrator, go to workspace module; the result is shown in 20130328_c8.PNG

as you can see there is nothing that can be done here; please note that the "t3_draft" tab is empty

I hope that this will be sufficient; please contact me if you need more infos
