

TYPO3.Flow - Bug # 13796

Status:	Closed	Priority:	Should have
Author:	Regine Rosewich	Category:	
Created:	2011-03-12	Assigned To:	
Updated:	2011-03-17	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	PHP Parse error: syntax error, unexpected \$end		
Description			
<p>When trying to kickstart a new Application from the command-line, I get the following Error:</p> <pre>PHP Parse error: syntax error, unexpected \$end in /Applications/MAMP/htdocs/FLOW3/Data/Temporary/Development/Cache/FLOW3_Object_Classes/F3_FLOW3_Validation_ValidatorResolver_Original.php on line 415</pre>			
<p>The mentioned file is, according to the eclipse-Editor, perfectly ok. So it seems almost impossible for me to track the problem.</p>

- Status changed from New to Closed

Cannot reproduce this.

Please note that the proxy building mechanism might not have been stable in the version you tried and work on it is still in progress.
