

TYPO3.Fluid - Bug # 13906

Status:	Closed	Priority:	Should have
Author:	Daniel Poetzinger	Category:	ViewHelpers
Created:	2011-03-18	Assigned To:	Bastian Waidelich
Updated:	2011-03-18	Due date:	
Has patch:			
Affected Flow version:			
Subject:	No way to set "ATagParams"		
Description			
All linkViewHelpers need a way to set a classname			
http://git.typo3.org/TYPO3v4/CoreProjects/MVC/fluid.git?a=blob;f=Classes/ViewHelpers/Link/PageViewHelper.php;h=fe2c9a4762c95fa802caf6fadb7cce06c14c8a6;hb=HEAD			

History

#1 - 2011-03-18 15:47 - Christian Müller

But they are all TagBasedViewHelpers, so they normally should support basic tag parameters like id and class.

AbstractTagBasedViewHelper->registerUniversalTagAttribute()

#2 - 2011-03-18 16:22 - Bastian Waidelich

- Category set to ViewHelpers
- Status changed from New to Closed
- Assigned To set to Bastian Waidelich

Hi Daniel,

All TagBasedViewHelpers support the "universally supported" attributes like class. If you need to specify an additional attribute, you can do so by using the additionalAttributes argument:

```
1<f:link.action additionalAttributes="{foo: 'bar'}" />
```
