TYPO3.Flow - Bug # 13979

Status:	Resolved	**Priority:**	Could have
Author:	Dawid	**Category:**	Package
Created:	2011-03-22	**Assigned To:**	Karsten Dambekalns
Updated:	2011-04-11	**Due date:**	

PHP Version:

Has patch:

Complexity:

Affected Flow version:

Subject:	Problem with deleting package

Description

Looks like there is some kind of problem with recursive deleting files.

After typing ./flow3 package delete Packagekey i receive

Uncaught Exception in FLOW3 #1: Warning:
rmdir(/var/www/flow/public/Packages/Application/Offices/Resources/Private/Templates/Office): Directory not empty in
/var/www/flow/public/Packages/Framework/FLOW3/Classes/Utility/Files.php line 140
thrown in file Packages/Framework/FLOW3/Classes/Error/ErrorHandler.php
in line 82

Offices is my test package key.
It looks like it is tring to use rm with out -R parameter

[BUGFIX] (Package) Clear message when package dir cannot be deleted

When the removal of a package directory fails, throw an exception that
hints at file permissions as a possible cause.

Fixes: #13979
Change-Id: I445530204cbe7413879b3130610ebc8ba3ab685f

History

#1 - 2011-03-30 10:03 - Karsten Dambekalns

- Category set to Package

- Status changed from New to Accepted

- Assigned To set to Karsten Dambekalns

- Priority changed from Must have to Could have

No, it tries to do the right thing, but fails to remove some items due to permission problems. Thus some files are left and the rmdir() fails.

Solution: catch those errors and emit a more helpful message.

#2 - 2011-03-30 15:40 - Karsten Dambekalns

- Target version set to 1.0 beta 1

Another possible cause: there is a .svn or .git directory in your package directory. That cannot be deleted right now, see #25472.

Hi guys, thanks for checking.

First of all..no .svn or .git folders where there. For sure

Priviliges also shouldn`t be a problem because all Packages for test had chmod 777 recursivly for all folders. So I think that those two basic things ain`t relevant
