Description

Hi guys,

i have developed some small but usefully viewHelpers for Be Development.
You can find them here on forge:

http://forge.typo3.org/projects/extension-sitemgr/repository/show/trunk/Classes/ViewHelper/Be/Doc

As told on the newsgroup typo3v4mvc i will create and issue for every single viewHelper.

This ViewHelper allows you to add settings to the be as js.

Thanks for all your work.
Regards
Kay
