

## Community - Bug # 1482

<b>Status:</b>	Closed	<b>Priority:</b>	Must have
<b>Author:</b>	Frank Nägler	<b>Category:</b>	
<b>Created:</b>	2008-09-09	<b>Assigned To:</b>	
<b>Updated:</b>	2010-10-20	<b>Due date:</b>	
<b>Subject:</b>	ACL restriction bug		
<b>Description</b>			
<p>There are defined the following ACL-Rules:</p> <pre>_ MessageCenter_sendMessages_2 _ Role: Alle _ Access: Deny _ MessageCenter_sendMessages_2 _ Role: Freund _ Access: Deny _ MessageCenter_sendMessages_2 _ Role: Schulfreund _ Access: Allow</pre> <p>User A (UID: 1) is "Freund" of User B (UID: 2), but not "Schulfreund"</p> <p>User A can send messages to user B, but User B has restricted the sending of message to "Schulfreund"-Role only.</p> <p>The check in the class:</p> <pre>\$this-&gt;accessManager-&gt;addResource(\$this); if (!\$this-&gt;accessManager-&gt;isAllowed(\$this)) {     throw new tx_communitymessages_AclRestrictionException(); }</pre>			

### History
