Updated:	2009-09-25	**Due date:**	
TYPO3 Version:	3.8.0		
PHP Version:	4		
Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Session-Lifetime for BE-User and FE-User doesnt work in FE		

Description
The new Lifetime/SessionTimeout for FE-User and BE-User doesnt work in Frontend (as it does in the Backend).

There are missing the following lines in the Source (possible fix):

/index.php (BE-User Initialisation):
$BE_USER->auth_timeout_field = intval($TYPO3_CONF_VARS['BE']['sessionTimeout']);

/tslib/class.tslib_fe.php (function initFEuser):
$this->fe_user->auth_timeout_field = intval($this->TYPO3_CONF_VARS['FE']['lifetime']);

(issue imported from #M1233)

History

#1 - 2006-01-19 14:54 - Franz Holzinger

With the latest CVS Core from 19.1.2006 I get a timeout after 1 or 2 minutes from the backend.

However I have set it to

[BE][sessionTimeout] = 12000

#2 - 2009-09-25 18:39 - Christian Kuhn

Fixed, unable to reproduce in recent versions:

This definatly works in 4.2.8:

The proposed fix in tslib_fe is actually in class tslib_feUserAuth, method start:

$this->auth_timeout_field = $this->lifetime;
