<b>TYPO3 Version:</b>	4.0		
<b>PHP Version:</b>			
<b>Complexity:</b>			
<b>Is Regression:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	Set passwords for install tool and BE admin user in 1-2-3 mode		
<b>Description</b>	<p>For security reasons default passwords are a really bad idea. We should remove the default passwords for all packages and ask the user to input</p> <ul style="list-style-type: none"><li>a) an install tool password</li><li>b) a BE admin username and password</li></ul> <p>This should probably be requested in stage 3 before everything is set up.</p> <p>(issue imported from #M2035)</p>

### History

#### #1 - 2010-05-10 15:48 - Chris topher

This can now be done using the hooks integrated with #22423.

#### #2 - 2013-04-17 16:09 - Alexander Opitz

- Status changed from New to Needs Feedback
- Target version deleted (0)
- TYPO3 Version changed from 3.9-dev to 4.0
- PHP Version deleted (4)

Installing the Introduction Package leads to the question for a password, so I think this is resolved.

Is that ok for you?
