Core - Feature # 15640

Status:	Resolved	**Priority:**	Should have
Author:	Stefano Cecere	**Category:**	Extension Manager
Created:	2006-02-16	**Assigned To:**	Chris topher
Updated:	2010-05-20	**Due date:**	
PHP Version:	4		
Complexity:			
Sprint Focus:			
Subject:	search word also in title and descriptions		

Description

now that the whole db is local, it could really improve to find the right ext in the extension manager if the search was extended to the title and description fields (now it searches only the ext key)

(issue imported from #M2585)

History

#1 - 2006-02-28 19:51 - Stefano Cecere

for example i was searching for "photo", and the EM didn't give me as result:
"Photo Book   goof_fotoboek", since the ext name is "goof_fotoboek"..

but it is one of the best photo book for typo3!

#2 - 2006-12-04 13:33 - Robert Lemke

Checked with current SVN version (04.12.06)

#3 - 2006-12-04 13:36 - Robert Lemke

I tried setting the category to "Extension Manager" but always got Mantis APPLICATION ERROR #14875

#4 - 2006-12-10 21:08 - Karsten Dambekalns

@Robert: you forgot to set the TYPO3 version select field... :)

#5 - 2006-12-10 21:17 - Karsten Dambekalns

With the rev 1860 patch from #15663 applied this can be done with changing one line, see patch.

#6 - 2006-12-12 12:28 - Karsten Dambekalns

The list of loaded/installed extensions can also be searched, but here the search also looks into author and author_company - I think this should be done here, too, for the sake of consistency.

#7 - 2006-12-12 15:20 - Karsten Dambekalns

v2 is a new patch also searching author name and company, based on TYPO3 from SVN with the db-based extension cache included (rev 1869).

#8 - 2007-01-30 00:20 - Stefano Cecere

maybe this issue can be closed?

has bug-2585-v2.diff been applied?

#9 - 2007-02-23 14:34 - Michael Stucki

No this has not yet been applied!

#10 - 2010-05-20 02:46 - Chris topher

Now it has been applied:

Resolved as duplicate of #0012482.
