Sprint Focus:			
Subject:	CSV-Download of records impossible in HTTPS-Backend and Internet Explorer		
Description	<p>When trying to download a CSV-file of records in the backend IE throws an error message (file could not be transferres...page could not be found) and no file is being downloaded. This only occurs in a completely HTTPS-secured backend.</p> <p>This seems to be a more general problem as some extensions are sporting the same behaviour (questionnaire-export etc.). Most certainly an IE-bug, but it HAS to work anyways.</p> <p>(issue imported from #M4097)</p>

History

#1 - 2010-07-15 12:55 - Andrew Henson

This issue is still live in the latest version of TYPO3. It affects IE 6, 7 and 8. I have attached a patch which resolves it. I have tested it with IE8 in a HTTPS secured backend.

Similar issues may lie elsewhere in TYPO3 where downloads are taking place.

#2 - 2010-07-15 13:03 - Chris topher

Hi Andrew,

thanks for your feedback and for the patch!

Please send it to Core List to get it integrated in the next releases.

Check out <http://typo3.org/teams/core/core-mailinglist-rules>

PS: Please use tabs to indent the lines.

- Status changed from New to Needs Feedback

- Target version deleted (0)

The issue is very old, does this issue exists in newer versions of TYPO3 CMS (4.5 or 6.1)?
