

TYPO3.Flow - Feature # 1677

Status:	Resolved	Priority:	Could have
Author:	Bastian Waidelich	Category:	Persistence
Created:	2008-10-11	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Subject:	Query: add convenience method returning the first object of a result set		
Description			
<p>To retrieve one single object from a repository, one has to do something like this currently:</p> <pre>\$objects = \$query->execute(); if (count(\$objects) < 1) { return NULL; } return \$objects[0];</pre> <p>Something like a "fetchOne()" -method in F3::TYPO3CR::Query::Query would be helpful:</p> <pre>\$query->execute()->fetchOne();</pre> <p>or probably more like that</p> <pre>\$query->fetchOne();</pre> <p>this could also set the limit to 1 to improve performance.</p>
