

Core - Bug # 16912

Status:	Closed	Priority:	Should have
Author:	Oliver Hader	Category:	Extension Manager
Created:	2007-01-28	Assigned To:	Oliver Hader
Updated:	2007-03-13	Due date:	
TYPO3 Version:	4.1		
PHP Version:	5		
Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Warning on uploading extension to TER (unserialize)		
Description			
<p>After uploading an extension to TER, the following warning appears:</p> <p>Warning: unserialize() expects parameter 1 to be string, array given in /[...]/typo3/mod/tools/em/class.em_terconnection.php on line 278.</p> <p>Line 278 in class.em_terconnection.php contains:</p> <pre>'techInfo' => unserialize(\$uArr['techInfo']),</pre> <p>But \$uArr['techInfo'] is an array. So, there a two possibilites (I guess last one):</p> <ul style="list-style-type: none">- serialize(\$uArr['techInfo'])- \$uArr['techInfo'] <p>(issue imported from #M4873)</p>
