Subject:	Pictures in navigation bar clickable		
Description			
<p>The pictures in front of the words "site", "list" and so on should be clickable.</p> <p>It would be better if these are also linked like the words behind. When I was teaching someone typo3 he wanted to click on that and it would be nice if it works.</p> <p>(issue imported from #M4984)</p>

This works in the new backend of TYPO3 4.2 and newer.

For the old BE check #22701.
