

## Core - Bug # 17243

<b>Status:</b>	Closed	<b>Priority:</b>	Should have		
<b>Author:</b>	Jörg Wagner	<b>Category:</b>	Install Tool		
<b>Created:</b>	2007-04-25	<b>Assigned To:</b>			
<b>Updated:</b>	2013-09-06	<b>Due date:</b>			
<b>TYPO3 Version:</b>	4.1				
<b>PHP Version:</b>	5.2				
<b>Complexity:</b>					
<b>Is Regression:</b>					
<b>Sprint Focus:</b>					
<b>Subject:</b>	Install tool's DB compare shows wrong tables to update on MySQL 5 collation latin1_bin				
<b>Description</b>					
<p>With MySQL 5 and the collation of the Typo3 db set to latin1_bin the install tool shows a lot of tables to be changed that actually are correct. This happens because the command "binary" in the Current value is not recognized correctly - e.g.:</p> <pre>ALTER TABLE be_groups CHANGE title title varchar(50) NOT NULL default ";</pre> <p>Current value: varchar(50) binary default "</p> <p>Thus the install tool thinks the table has to be altered.</p> <p>Trying to update the tables with the install tool results in the same list being shown again.</p> <p>True that it is not very intelligent to set the db's collation to latin1_bin, but the install tool should show a correct warning instead of showing wrong db updates that also do not change the situation when executed.</p> <p>MySQL 5 (issue imported from #M5495)</p>

### History

#### #1 - 2007-05-11 11:29 - Franz Holzinger

TYPO3 4.2-dev:

The install tool continuously demands this:

Changing fields

```
ALTER TABLE cache_typo3temp_log CHANGE orig_filename orig_filename varchar(255) NOT NULL;
```

Current value: varchar(255) default "

#### #2 - 2013-05-05 11:22 - Alexander Opitz

- Status changed from New to Needs Feedback
- Target version deleted (0)

The issue is very old, does this issue exists in newer versions of TYPO3 CMS (4.5 or 6.1)?
