

## Core - Bug # 17666

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Hartmut Plehn	<b>Category:</b>	
<b>Created:</b>	2007-10-10	<b>Assigned To:</b>	
<b>Updated:</b>	2013-05-05	<b>Due date:</b>	
<b>TYPO3 Version:</b>	4.1		
<b>PHP Version:</b>	5.1		
<b>Complexity:</b>			
<b>Is Regression:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	be sessions time out before \$TYPO3_CONF_VARS["BE"]["sessionTimeout"]		
<b>Description</b>			
<p>We notice BE session timeouts. The timeouts occur after some time of inactivity (1-2 hours), that is shorter than the time defined in \$TYPO3_CONF_VARS["BE"]["sessionTimeout"]</p> <p>Some debugging showed that t3lib_userAuth::gc() is called with different values of gc_time. gc_time (and auth_timeout_field) sometimes have the value \$TYPO3_CONF_VARS["BE"]["sessionTimeout"] and sometimes are 6000.</p> <p>Probably there are t3lib_beUserAuth-Objects initialized (by extensions or cli-programs) that do not explicitly set auth_timeout as in init.php. We are using simulatebe, which I suspect being the problem.</p> <p>Changing auth_timeout_field from 6000 to the value of \$TYPO3_CONF_VARS["BE"]["sessionTimeout"] in t3lib/class.t3lib_beuserauth.php seems to fix the problem.</p> <p>(issue imported from #M6493)</p>

### History

#### #1 - 2009-12-06 23:14 - Kurt Gusbeth

[BE][sessionTimeout] = 3600

Windows 7

Internet Explorer 8

Typo3 4.3.0

Working with tabs (Strg + T).

The "Typo3 login expiration notice" appears not after one hour, it appears after a few minutes! This is a very annoying bug.

The "Stay logged in!" button doesn't work! If I click at it, the window "Typo3 login expiration notice" appear again.

The "Refresh Login to TYPO3" occurs to fast. I can approve this only when I am working with tabs.

#### #2 - 2009-12-11 01:01 - Christian Kuhn

Probably related to #21511

**#3 - 2010-05-11 16:45 - Chris topher**

Kurt's problem might be a duplicate of #21511.

But the original report here surely is not (already because it was reported before IE8 was available).

**#4 - 2010-07-21 11:22 - Kurt Gusbeth**

Note to my report (0033499):

This problem is still not fixed in Typo3 4.4.0.

I have the same problem with:

- Windows XP
- Chrome browser 5.0
- Typo3 4.4.0

The "Typo3 login expiration notice" appears when I am coming back to the backend from an other browser-tab.

**#5 - 2011-03-16 10:28 - Rafal Likus**

We have the same effect:

Windows XP/7

IE 8, Firefox 3.6.x

Typo3 4.4.2 and 4.4.4 PHP5.3 with wincache, memcached, IIS 6/7

Mostly on workstations of users without power user / administrator privileges in Windows.

With these effects too <http://bugs.typo3.org/view.php?id=14979>

**#6 - 2012-09-16 13:34 - Felix Kopp**

- *Target version deleted (0)*

Is this issue still valid since the bootstrapping was unified?

**#7 - 2013-05-05 21:40 - Alexander Opitz**
