History

#1 - 2008-01-23 13:34 - Ingo Renner

Steffen, have a look at the old menu, there should be some uc variable already which was used to store the toggle state with the old backend

#2 - 2008-01-23 13:39 - Stefano Cecere

works perfectly under FF & Safari 3.0

#3 - 2008-01-23 13:40 - Ingo Renner

by looking at the JS:

  - just give the headers a class which you can the look up using prototype's $$ function
  - for initialization do not observe clicks on document but observe the dom:loaded event and then use each to iterate over the elements you found using $$

  - event.target, parentNode, .id are bad style, please use prototype's function. makes things a lot easier

#4 - 2008-01-23 13:42 - Ingo Renner

check http://thinkweb2.com/projects/prototype-checklist/ to get more familiar with prototype

#5 - 2008-01-23 14:08 - Steffen Kamper

i will check that and improve js, also try to save state like old menu.

#6 - 2008-01-23 17:35 - Steffen Kamper

i attached new patch which also saves the menu state in uc

#7 - 2008-01-23 17:55 - Stefano Cecere

works (safari 3 and FF2)
+1

#8 - 2008-01-23 18:33 - Ingo Renner

committed Steffen's patch after cleaning up formatting a little bit, great work!
