<b>Sprint Focus:</b>			
<b>Subject:</b>	[Usability] Inline Palettes open too fast; add a smooth folding		
<b>Description</b>			
<p>Since TYPO3 4.2, palettes open 'inline'. This happens very fast, actually so fast that it can be confusing.</p> <p>I propose to let the palettes blindup/blinddown, just like recently introduced for the module menu (see #18043 and #18043).</p> <p>If issue #18043 is accepted, then people who want instant opening of the palette menus can set duration=0 (this will require a revised patch; cf. the patch in #18043).</p> <p>If issue #18043 is accepted, then module menu and palette menus can not be configured individually. Would that be needed, anyway? (issue imported from #M7308)</p>

### History

#### #1 - 2013-05-06 09:57 - Alexander Opitz

- Status changed from New to Needs Feedback
- Target version deleted (0)

As this report is very old, is the handling in newer TYPO3 CMS Versions (like 6.0/6.1) more like you expect it?

#### #2 - 2013-09-09 08:48 - Alexander Opitz

- Status changed from Needs Feedback to Closed

No feedback for over 90 days.
