

TYPO3.TYPO3CR - Bug # 1871

Status:	Resolved	Priority:	Must have
Author:	Karsten Dambekalns	Category:	Property handling
Created:	2008-10-27	Assigned To:	Karsten Dambekalns
Updated:	2011-05-05	Due date:	
Subject:	System properties (like jcr:uuid) are missing		
Description	Those need to be exposed		

Associated revisions

Revision 33522d86 - 2008-11-24 21:06 - Karsten Dambekalns

TYPO3CR:

- Nodes now expose jcr:uuid and jcr:primaryType, refs #1871
- Node->hasProperties() thus now returns TRUE hardcoded
- Node->addNode() now throws an exception when no nodetype is given
- necessary adjustments to unit tests

History

#1 - 2008-10-28 13:14 - Karsten Dambekalns

- Priority changed from *Should have* to *Must have*
- Target version set to 197

#2 - 2008-11-03 12:21 - Karsten Dambekalns

- Status changed from *New* to *Accepted*
- Assigned To set to *Karsten Dambekalns*

#3 - 2008-11-24 15:03 - Karsten Dambekalns

This what we should have in a first step, based on the node types defined in the spec and our feature set.

- jcr:uuid (string) mandatory autocreated protected initialize
- jcr:primaryType (name) mandatory autocreated
- jcr:mixinTypes (name) protected multiple autocreated

Since our nodes are always mix:referencable, jcr:mixinTypes will always be present.

#4 - 2008-11-24 21:10 - Karsten Dambekalns

- % Done changed from 0 to 90

Need to clarify semantics of jcr:mixinTypes property.

#5 - 2008-11-26 13:13 - Karsten Dambekalns

- Status changed from *Accepted* to *Resolved*
- % Done changed from 90 to 100

jcr:mixinType only reflects mixins assigned to a node directly, not inherited ones (like getMixinNodeTypes() does).
Since we don't have support for mixins in that form yet, this issue is resolved.

#6 - 2011-05-05 17:12 - Robert Lemke

- *Target version deleted (197)*
