

## Core - Bug # 18867

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Steffen Kamper	<b>Category:</b>	
<b>Created:</b>	2008-05-28	<b>Assigned To:</b>	Steffen Kamper
<b>Updated:</b>	2010-07-09	<b>Due date:</b>	
<b>TYPO3 Version:</b> 4.2			
<b>PHP Version:</b> 5.2			
<b>Complexity:</b>			
<b>Is Regression:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	Enhance page modul		
<b>Description</b>			
Description			
there are several issues concerning the page module (classic)			
<ul style="list-style-type: none"><li>- CE's are not well separated</li><li>- the view is crowded with ungrouped icons</li><li>- there is too much info visible</li><li>- edit links are not consistent, some texts are not linked</li><li>- crop of text preview is hardcoded to 1500</li><li>- Headers are not consistent with list view</li><li>- CSH icon is at wrong position</li><li>- CSH of big buttons has wrong position</li><li>- quickedit has wrong order of funtion menus</li><li>- not unique width of columns looks bad</li><li>- difficult to get a visual focus, users are irretated</li></ul>			
i tried to handle all issues in my patch, some screenshots are added			
Beside the visual changes i did there are 3 new configuration params for usage in pageTS			
<pre>var \$showLanguageLabelInCE = false;    // If set true, label for language will be shown in CE header var \$previewTextCropLength = 150;      // sets length of preview text of CEs var \$columnWidth = 200;                // fix width for columns</pre>			
This has to be documented.			
Usage (pageTS):			
<pre>mod.web_layout { # this brings back the language labels in CE   showLanguageLabelInCE = 1 # sets preview text length   previewTextCropLength = 500 # sets fixed width for columns. For auto-width set it to 0   columnWidth = 280 }</pre>			
(issue imported from #M8543)

## History

---

### #1 - 2008-05-29 10:55 - Ingo Renner

awesome!

### #2 - 2008-11-11 14:40 - Stefan Galinski

The last patch is against TYPO3 4.2.3. I hope there isn't anything missing in the patch, because it has only the half of the size from the original one. However the patch worked fine in my installation.

### #3 - 2008-11-11 20:00 - Chris topher

This is really a great patch! This really improves usability a lot!  
I especially like the idea of the adjustable column-width.

One usability-improvement I miss in this module is, that the "Show secondary options" is always shown.

If there was a way to hide this checkbox, that would be great.  
Could you still add that small feature?

This would make the patch perfect!

### #4 - 2008-11-12 00:05 - Steffen Kamper

Thanks to bring this up again, i will test your latest patch ASAP.

@Christopher - i know you want to hide the checkbox, but it's a different issue and should go to a different patch, as it belongs to different views.

### #5 - 2009-01-21 14:49 - Stefan Galinski

uploaded version 3 for TYPO3 4.2.4

### #6 - 2009-01-21 21:59 - Ingo Renner

why are you creating diffs against 4.2? We can't include it there anymore, just create patches against trunk, that'll do. =)

### #7 - 2010-07-07 15:17 - Stefan Galinski

The patch completely fails with 4.4, but IMHO it's not needed anymore in this version. Our skinning team did a great job!

### #8 - 2010-07-08 10:20 - Ingo Renner

agreed, the current version is even better

solved in 4\_4 with the new skin
