Subject:	CSH when editing a Content Element has wrong position		
Description	<p>If you edit a Content Element, there is this checkbox "Index". The position of the CSH box should be better, because often it is not shown completely (see attached picture). Problem is at least present with Firefox and 1024x768 pixels.</p> <p>A solution would be to make it right-justified, so that it ends where the table ends.</p> <p>(issue imported from #M8562)</p>

History

#1 - 2010-06-04 12:17 - Jo Hasenau

The backend code cleanup team will take care of it and try to find a solution.

<http://forge.typo3.org/issues/8058>

#2 - 2010-07-15 12:42 - Chris topher

Same problem for the CSH bubble next to the four big buttons in the Page Module.

#3 - 2011-01-22 19:43 - Chris topher

This has been fixed with the new Ext JS help bubbles and with restructuring the Backend in TYPO3 4.5.
