Updated:	2008-10-19	**Due date:**	

TYPO3 Version:	
PHP Version:	
Complexity:	
Is Regression:	
Sprint Focus:	
Subject:	Edit in Rich Text Editor - Button doesn't work anymore in Web>Page

Description

If any user or admin clicks on the button "Edit in Rich Text Editor" in Web>Page Module for any text content element, this results in a broken Rich Text Editor (rtehtmlarea).

This is reproducable in TYPO3 4.2.2 with Firefox, IE7, Chrome and Opera. It also occurs with a new clean TYPO3 4.2.2 installation.

See attached screenshots.

Firefox error console says:
Error: TBE_EDITOR is not defined
Source:
http://.../typo3/wizard_rte.php?&P[table]=tt_content&P[uid]=307&P[pid]=10&P[field]=bodytext&P[returnUrl]=%2typo3%2Fsysext%2Fcms%2Flayout%2Fdb_layout.php%3Fid%3D10
Line: 204

History

#1 - 2008-10-07 18:55 - Oliver Hader

Please test the attached patch in combination with the patch provided at issue #9494

#2 - 2008-10-08 09:38 - Christian Hernmarck

I have problems with the patch:

...../typo3/typo3_src-4.2.2_copy# patch ~~p0 < 0009497.patch~~
~~patching file typo3/alt_palette.php~~

patching file typo3/wizard_rte.php

Hunk #1 FAILED at 110.

1 out of 1 hunk FAILED -- saving rejects to file typo3/wizard_rte.php.rej

patching file typo3/mod/user/ws/workspaceforms.php

Hunk #1 succeeded at 137 with fuzz 1.

patching file typo3/sysext/cms/layout/db_layout.php

Hunk #1 succeeded at 404 with fuzz 1.

Hunk #2 FAILED at 545.

1 out of 2 hunks FAILED -- saving rejects to file typo3/sysext/cms/layout/db_layout.php.rej

/Christian

#3 - 2008-10-08 11:20 - Oliver Hader

Please check the attached new patches (the old one was only for Trunk):

0009497_trunk.patch - TYPO3 4.3 development (Trunk)

0009497_4-2.patch - TYPO3 4.2.x

The patches now include also the fix for issue #9494 - this has to be handled in one step an cannot be separated.

#4 - 2008-10-08 11:39 - Christian Hernmarck

Just implemented 0009497_4-2.patch - this fixes this rte problem on my 4.2.2 installation (no other tests...).

Thanx

#5 - 2008-10-08 15:18 - Tobias Liebig

The Patch 0009497_4-2.patch worked for me too (4.2.2).

It also fixes #9494 (brocken password and double fields)

#6 - 2008-10-08 15:27 - Tobias Liebig

i'll suggest to replace this:

```
function typoSetup      () {
     this.passwordDummy = '********';
     this.decimalSign = '.';
  }
  var TS = new typoSetup();
```

with something like:

```
  var TS = TS || {};
   TS.passwordDummy = '********';
   TS.decimalSign = '.';
```

and do the same for all "function typoSetup" in

 typo3/jsfunc.tbe_editor.js

 typo3/alt_main.php

 typo3/backend.php

so the order does not matter anymore, as the TS object is not overwritten, but extended.

#7 - 2008-10-08 23:00 - Steffen Kamper

@Tobias: looks great. Could you make a patch therefore?

@Olly: i tested #9494 and works perfect, no need for the palette-stuff imho

#8 - 2008-10-09 00:21 - Sebastian Michaelsen

Thanks for that quick patch

#9 - 2008-10-09 00:36 - Oliver Hader

Thanks for your feedback. I'm going to put the patches on the Core List tomorrow.
The changes for the "TS" thingy will go to a new issue and RFC and for TYPO3 4.3 only

#10 - 2008-10-09 10:16 - Daniel Krupke

Thanks for that patch. It works quite fine with TYPO3 4.2.2 environments.

#11 - 2008-10-10 10:37 - Leonhard Wimmer

Thank you for the patch. It works perfectly.

#12 - 2008-10-10 22:22 - Francois Suter

I can only add my voice to that. The patch works real fine. I hope you can submit the patch to the core list soon. And then we should probably have a
hot fix 4.2.3 release.

#13 - 2008-10-14 18:35 - Administrator Admin

I'm a real newbie, but how do I apply the patch?

#14 - 2008-10-19 14:35 - Michael Stucki

Fixed in TYPO3 4.2.3 (rev. 4326) and Trunk (rev. 4327).
