Subject:	RTE doesn't work properly anymore				
Description					
Since I installed 4.2.2:					
Chosing pencil icon brings up RTE, but the edit in RTE Link below only shows HTML. When you are in HTML view, you cannot save changes anymore.					
THX for fixing this!

If you're talking about the RTE fullscreen mode, you can find patches for TYPO3 4.2.2 and Trunk in issue #19423

Seems to be the same thing:

pencil ok, "edit in RTE" not ok...
