TYPO3 Version:	4.2		
PHP Version:	5.2		
Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Frontend Editing does not work anymore		

Description

Due to a change of loading JavaScript libraries in the back-end by a commond handler function, the front-end editing does not work anymore and shows the following PHP error:

Fatal error: Call to undefined method stdClass::loadJavascriptLib() in t3lib/class.t3lib_tceforms.phpon line 5079

(issue imported from #M9608)
