Subject:	authorName in PackageInfo.xml should be changed

Description

authorName in !PackageInfo.xml is nonsense - there eventually will be more than one author at the same time, and the name gets loaded as single value in source:Packages/Core/Classes/PackageManager/.

Ideas:

 - Should rather be maintainerName
 - Additionally handle as multi-value?

- Status changed from New to Closed

- Sprint set to duplicate

I created ticket #14 which generally asks for defining the file format.
