| Complexity: | | | |
| Sprint Focus: | | | |
| Subject: | Automatic add last-modified to resource files like javascript or css | | |
| Description | | | |
| <p>To get rid of JavaScript or CSS-Layout problems in BE or FE be caused by browsercached files with same filename but different content, it would be nice to add the last-changed timestand behind the original filename to trigger explicit the browser reloading this file.</p> <p>Like Ruby on Rails does:</p> <pre><script src="/javascripts/prototype.js?1236758403" type="text/javascript"></script> or <link href="/stylesheets/scm.css?1236758404" media="screen" rel="stylesheet" type="text/css" /></pre> <p>(issue imported from #M10680)</p> | | | |

Good idea! The re-login problem that occurs with old JavaScript files every now an then is pretty annoying.

#2 - 2010-05-16 16:05 - Chris topher

Resolved with #22546.
