TYPO3.Flow - Task # 2118

Status:	Resolved	**Priority:**	Must have
Author:	Robert Lemke	**Category:**	MVC
Created:	2008-11-11	**Assigned To:**	Robert Lemke
Updated:	2010-10-20	**Due date:**	
Sprint:			
PHP Version:			
Has patch:			
Complexity:			
Subject:	Decouple MVC and Security		
Description			

Remove dependencies between MVC and Security Framework (in Dispatcher)

Associated revisions

Revision aa95e6e5 - 2009-01-26 15:37 - Robert Lemke

- FLOW3: (Security) Renamed the aspect InterceptorInvocation to PolicyEnforcementAspect
- FLOW3: (Security) Completely removed the security code from the MVC dispatcher. Instead it is now woven in by advices in the new RequestDispatchingAspect. Resolves #2118
- FLOW3: (Security) The old and the new aspect are now only active if security is enabled. That means: No security related proxies are generated if security is turned off. Addresses #2118
- FLOW3: (Security) Security is now (again) enabled by default. But that doesn't mean that everything is secure yet ...
- FLOW3: (AOP) Fixed the "Setting" poinctut designator by adding the class to the Objects configuration.

History

#1 - 2008-12-16 13:25 - Karsten Dambekalns

- Category set to Security

By now security can be switched off, but there are still dependencies in the code.

#2 - 2009-01-26 13:33 - Robert Lemke

- Category changed from Security to MVC

- Status changed from New to Accepted

- Assigned To set to Robert Lemke

#3 - 2009-01-26 15:40 - Robert Lemke

- Status changed from Accepted to Resolved

- % Done changed from 0 to 100

Applied in changeset r1792.
