Subject:	Sitemap: Recently updated pages broken

Description

Hi,

the Sitemap with Menu type "Recently updated pages" does nothing show in the Frontend. I selected the root page as starting point, but there are no updates of pages shown.

(issue imported from #M12169)

related to Core - Bug # 19762: Traversing back page records used in CONTENT o...	**Closed**	**2009-01-03**

History

#1 - 2009-10-09 21:07 - Steffen Kamper

i discovered also some misbehaviour of the update menu, though i could display something with root page start (but only one entry)

I will investigate.

#2 - 2009-10-14 16:01 - Oliver Hader

Since #19762 introduced this negative side-effect and got reverted now, no change is required here.
