History

#1 - 2009-11-10 12:57 - Jo Hasenau

Just a hint: I am not sure if escaping the URL params will apply to each of the different HTML/XHTML specifications. But since we are in the BE it should not be too complicated to stick to just one specification anyway.

#2 - 2009-11-10 13:01 - Steffen Kamper

you can define specification for your own module, but for core module they are fixed / hardcoded, so this is ok.

#3 - 2009-11-30 18:18 - Steffen Kamper

committed to 4_3, rev 6607 and trunk rev 6608
