Author:	Patrick Broens	Category:	Should hav	<i>ie</i>			
Created:	2010-04-11	Assigned To:	Patrick Bro	one			
Updated:	2010-07-02	Due date:	Fallick Dio				
PHP Version:	5.2	Due dale.					
Complexity:	5.2						
Sprint Focus:							
Subject:	Install tool refactoring						
Description	install tool relactoring						
Problems:							
	to style it, because of strange consti	ructs everywhere					
- The output car							
-	coming Introduction Package we ne	eed hooks for the 1-2-3 installer	which makes it po	ossible to overwrite and ad			
steps							
Solutions:							
	the install tool templateable						
•	•	e text within plain paragraph tag	S				
 HTML which stays in the code, must be simple, like text within plain paragraph tags Take care of clean HTML which can be validated 							
	class.tx_install.php						
	nting new ExtBase like directory stru	icture, right now only for Resourc	Ces				
•	с ,
