| Subject: | Missing Icons in new IconSet | | |
| Description | | | |
| There where several icons missing in the new icon set, especially file-types, not-in-menu, palettes and so on. | | | |
| filled up missing icons from famfam set or t3skin, reskinning team also gave some changes (page-type icons) | | | |
| Additionally to the added icons the sprites where updated accordingly, and all core tca and spritelconApi configuration has been adapted to mathc ne new stuff. | | | |
