History

Problem due to a fixed height in EXT:t3skin/stylesheets/structure/module_menu.css :

#typo3-menu li ul li { height: 21px; }

You can remove it to display your multi-line label

#2 - 2010-06-18 19:21 - Steffen Gebert

Yes, but then the height of each entry is ~60px in IE. That's why Susanne added the definition.
