TYPO3.TYPO3CR - Bug # 2277

Status:	Resolved	**Priority:**	Must have
Author:	Christoph Blömer	**Category:**	FLOW3 Persistence
Created:	2008-12-05	**Assigned To:**	Karsten Dambekalns
Updated:	2011-05-05	**Due date:**	
Subject:	When adding the same element more than one time to the repository only the first is created		

Description
The Blog has tags which can be added to more than one post. After rev 1566 this is not possible anymore. Example: $tag1 = $this->objectFactory->create('F3::Blog::Domain::Tag'); $tag1->setName('Development'); $post1 = $this->objectFactory->create('F3::Blog::Domain::Post'); $post1->addTag($tag1); $post2 = $this->objectFactory->create('F3::Blog::Domain::Post'); $post2->addTag($tag1); The tag is not added to the second post. Also no Exception is shown.
