### History

#### #1 - 2010-06-15 18:01 - Chris topher

Doesn't the link-field only contain page (and CE) numbers? I think version B might be a bit long.

#### #2 - 2010-06-15 18:09 - Ron Hall

Much of the time it contains just page or CE ids, but if you are using an external link then it will show the entire URL in that field. In which case it is nice to have the longer field. Also, I like how it lines up with the previous text field for the header.

#### #3 - 2010-10-19 23:45 - Chris topher

TCEForms have been rearranged now in #23766.

#### #4 - 2010-10-22 09:55 - Ernesto Baschny

Hi Ron, please check the new layout of the Pages + Content element FORMs, which has been totally reworked in 4.5.0 alpha3.

Please reopen a new issue if you have new suggestions on the new scheme.

We would appreciate a lot more "native speakers" feedback on that whole matter, would be great if you and Jeff could help out on that front. :)
