Updated:	2010-06-21	Due date:			
TYPO3 Version:	4.4				
PHP Version:	5.3				
Complexity:					
Is Regression:					
Sprint Focus:					
Subject:	Alignment of Checkboxes broken when editing a page				
Description					
<p>The checkboxes are not placed at the right points; looks like some of them are just placed "somewhere" (e.g. at "Spracheinstellungen").</p> <p>Also notice that vertically they seem to be aligned in the center (e.g. "Bearbeitung erfordert Admin-Rechte"). This looks strange, too.</p> <p>See screenshot. The bug is present in Firefox and IE.</p> <p>(issue imported from #M14745)</p>
