Subject:	Old table head stylings in Ext Manager

Description

Old CSS class found in Ext Manager.

The two columns 'Cur. Ver.' and 'Cur. Type.' have an outdated css-class assignement:

<td class="bgColor6" style="cursor: help;" [...] >Cur. Ver:</td>
<td class="bgColor6" style="cursor: help;" [...] >Cur. Type:</td>

Not needed any more!

See screen attached.

Hi,

thanks for your bugreport and for the patch!

Do you know, that you should now send it to Core List?
Check out http://typo3.org/teams/core/core-mailinglist-rules

No, it is not.

Choose category and Details and search for something (like "task"). Scroll to the right and you see that the columns "Current version" and "Current type" still have the wrong styling. Please send your patch to Core List!
